

THE HUMAN DIVINE PARADIGM

The Secrets of the Genesis Creation Epic

REV. DR. ROCCO ERRICO

**Seminar Series
Saturday, August 8, 2015
12:00PM to 2:00PM**

A challenging new look at the processes and mysteries of the primal creation account. Dr. Errico uses his own direct translation from the Aramaic-Peshitta text of Genesis 1:31 and 2:1-3. The early Mesopotamian world provides the broad setting for the creation story.

This account emerged out of the Near Eastern pool of gods and goddesses, culture, and mysticism. Dr. Errico presents the Semitic meaning, names, and theories of the origin of God, what it is to be fully human and the secret of the humanization of Divine Mind (God). A few of the subjects he will present are: Why 6 days of creation? What is God? What is a human being? What is the practical application for us in the modern world?

Dr. Rocco Errico is an international lecturer and author, scholar, spiritual counselor, and one of the nation's leading Biblical scholars working from the original Aramaic Peshitta texts.
